AGENDA & PROCESS   *ƒ*ractally Genesis

FRACTALLY GENESIS AGENDA & PROCESS ===
Moderator: Joshua Seymour

> *- Mission Statement -*
> *Fractally Genesis seeks to build the technology, raise awareness and grow adoption of*
> *ƒractal governance, as outlined in ƒractally's white paper.*

Welcome!
If this is your first meeting, don't worry - we all have experienced our 'first meeting' at some point and learned by observing others. We are all early adopters of this new governance process and many of us have already read the ƒractally White Paper to get up to speed. If you haven't had a chance to read the white paper, at least follow the requirements below, prior to the meeting so that you can observe the process live.

For those of you who have participated in a previous meeting(s), welcome back 😁 and many thanks for your continued participation in raising awareness and growing adoption of ƒractally and the ƒractal governance process.

Requirements:
- You must have a **hive user account**. If you don't have one, get one with hive here.
- Review and sign: Fractal Contributor Agreement. You must agree to participate by signing this Hive post with your Hive user account by Commenting the following on the post: "I agree".
- You must have a registered Zoom account. If you don't have one, get one here. Please change the Display Name of your Zoom account to read: FIRST LAST NAME (hive account)

SCHEDULE	
GETTING STARTED 10:30 AM CST - 11:00 AM CST [30 min]	If you're new to Fractally, then this meeting will help you get started. We will do a 30-minute orientation before we start our weekly meeting to earn respect.
MAIN ROOM Intro / AMA 11:00 AM CST - 11:15 AM CST [15 min]	Welcome to the Fractally Genesis Meeting / AMA (ask me anything).
TO DO: Agree to the agreement	If you haven't already done so, open the Fractal Contributor Agreement and reply (comment) to the post with the words: ***I agree***. Otherwise, please leave the meeting.
TO DO:	Each week a new hive.blog post will be shared in the Zoom Chat, so that each

Open the hive.blog post	participant can reply with a comment of their group's consensus rank order.
BREAKOUT ROOM 11:15 AM CST [25 min]	Welcome to the breakout room. Everyone will be randomly selected and placed in rooms of 5-6 people.
Repost your account info	Everyone must post their HIVE user account to the **Breakout Room Chat**, so the group participants can identify each other. Otherwise, they should leave the call.
Share your contributions verbally (and in the chat)	Each person should briefly introduce themselves and answer the following questions in 3 minutes or less: 1. What have you done to build the technology, raise awareness and grow adoption of ƒractal governance, as outlined in ƒractally's white paper? 2. Have you invited anyone to participate and did they accept? 3. How did you rank last week? Feel free to post a brief list of your contributions in the **Breakout Room Chat**.
Start Consensus 11:40 AM CST [20 min]	Select an individual in your group to document the ranking as you reach consensus. Begin your consensus conversation via this process: 1. Identify **who has contributed the most** relative to their past recognition and get 4-of-6 or 3-of-5 agreement. This will be the user who gets **rank 6.** 2. Identify second-best. This will be rank 5. 3. Repeat until agreement on the relative ranking of each contribution. 4. Use the Breakout Room Chat to confirm your consensus order list that includes the **Hive Account Names** ordered from greatest contribution to least in the following comma-separated format: `@rank6user, @rank5user@, @rank4user, @rank3user, @rank2user, @rank1user` 5. Everyone in the breakout chat should agree *and copy* the text with the correct consensus order and then post it to this week's hive.blog post. The URL to the hive.blog post will be shared in the Main Chat Room for your convenience.
REJOIN MAIN ROOM 12:00 PM CST TO DO: Post your group's consensus.	Post the copy of your group consensus list to this week's hive.blog post like so: `@rank6user, @rank5user@, @rank4user, @rank3user, @rank2user, @rank1user`
Conclusion	Final comments, group Q&A, and meeting conclusion. Thank you!

If you do not post in this format or have a typo, the community may not be able to reach a consensus opinion on how much respect to assign you. Consensus comments after 1pm CST will <u>not</u> be counted.

SUGGESTIONS TO SPEED THINGS THROUGH ≡

Zoom Username
Please update your Zoom display name to include HIVE account info in parenthesis.
Example update: **John Smith → John Smith (@hive_account_name)**

This will help others in your breakout room easily identify you when it comes to ranking.
(If you happen to use your existing Zoom account for alternate business, you may wish to create a separate Zoom account with such a display name).

Keep a Journal
Keep an electronic notepad or journal of your contributions during the week and jot them down.
At the top, write your HIVE account name as well as the date of the week with which your journal will apply.
Anytime you make a new, meaningful contribution to the community, jot it down!

When it comes time to meet the BREAK OUT session, at that point, you can cut and paste that entry into the chat window and spend a few minutes reviewing with the other 5 members. NOTE - wait until you're in your breakout room before you paste into the chat window!

As an example format:

> **Hive_Account_Name** Contributions:
> - 2 friends joined this fractal after sending an invite to my 200 twitter followers this week
> - Mailed a hardcopy of 'More Equal Animals' to my friend Sally as a followup to my phone we had discussing the governance process.
> - Last week I ranked #6 (highest ranked contributor)

Thank you for your participation and contributions – We're here to learn, engage, network/share with one another and most importantly have fun in the process!
